

Imagine coming home after a long day and not having to think about or work at getting dinner on the table. Forget drive-thru lanes and trying to figure out what to cook! You just pop a home-cooked entrée in the oven and dinner is served.

Sounds great, doesn't it?

Here's how:

Log onto our website, review our menus....click, click, click....you are ready to go! Arrive at our studio kitchen with a cooler, enjoy drinks and appetizers, assemble your entrees, take your entrees home and freeze. Now, enjoy time with your family!

It's that simple!

In the time that it normally takes you to prepare one meal, you can now put together up to 12 amazing entrees, each containing 4 to 6 generous servings. If you have a smaller family, entrees can be divided in half. Really in a hurry? Super Suppers can have your meals ready for you to pick up.

No Stress. No Mess. Just Super Suppers!
